

Table and SLU Future Food Present:

FOOD SYSTEMS RESILIENCE IN THE AFTERMATH OF COVID-19

Should the future of food be Global or Local?

A MEDIATED CONVERSATION BETWEEN

PIERRE-MARIE AUBERT,
RESEARCHER, IDDRI

Pierre-Marie Aubert leads the initiative on Public Policies for European Agriculture at IDDRI. His activities focus on interactions between agricultural development, food security and biodiversity protection at three different levels: national, regional and international.

IZABELLA TEIXEIRA,
CO-CHAIR, UN RESOURCE PANEL

Izabella Teixeira is an expert in environmental management, impact assessment and licensing. As Environment Minister, she led Brazil's negotiations of the Paris Agreement on climate change in 2015. She was named a Champion of the Earth in 2013.

MODERATOR

SAMARA BROCK,
PHD CANDIDATE, YALE U

Samara Brock is pursuing her PhD at Yale's School of Environment. She holds a master's in Community and Regional Planning from the University of British Columbia, and a master's in Food Culture from the University of Gastronomic Sciences in Italy.

NOVEMBER 5 2020 @ 13:00-15:00 CET

We will examine some of the **vulnerabilities** of the current food system and the **pros and cons of short and long supply chains**. What lessons do we learn in the aftermath of COVID-19? Is a more localised or globalised food system better for the environment? How do these conversations play out differently across the world?

We'll be practicing **dialogue rather than debate**, and having a conversation **grounded in science**, that will also bring about **value-based reflections** and conclusions.

The session will include a moderated conversation, questions from the audience, and an interactive session to further discuss and engage with the topics in breakout rooms.

We welcome SLU students, researchers and the extended Table community!
