Click "Next", "Next", "Accept", "Install" and authenticate with your computer account (can also be your AD account if that is what you are using for loging on to the computer.) Then click "Shut down" to finish the installation.

Open a Finder windows and navigate to "Program(Applications) > Cisco > Cisco AnyConnect Secure Mobility Client".

You can also click, hold and drag the icon to the Dock bar if you wish an easily accesible shortcut.

Start the application and type the same address as for the web page depending on wheter you are at home or at work, and then click the "Connect" button.
