

Advanced level courses in Biology/Forest Science

- **Ecology and Management of Diseases and Pests of Forest Trees** 15 hp, SG0225, Period 1
- **Forest Conservation Biology** 15 hp, BI1378, Period 2 (100%) and Period 3-4 (50%)
- **Master theses**
- Mycology, wildlife biology and cryptogams & nature conservation

Department of Forest Mycology & Plant Pathology

If you have questions about courses and thesis work contact: Malin.Elfstrand@slu.se (mykopat)

Department of Ecology

If you have questions about courses and thesis work contact: ekol-studierektorGU@slu.se (Ekol)

Ecology and Management of Diseases and Pests of Forest Trees /15 HP A1N,

Distance course

- Identification of common forest pest and pathogens (nationally and globally)
- Assessment the risk for outbreaks of forest pest and pathogens
- Methods to prevent epidemics and limit distribution of pest and pathogens

For information contact: Audrius.Menkis@slu.se

Ecology and Management of Diseases and Pests of Forest Trees /15 HP A1N,

- Online/pre-recorded lectures uploaded in Canvas together with exercises
- One week of excursions and practicals in, and around, Uppsala in September
- **Case** –Top 20 national and Top 20 international pest and pathogens-seminars in Zoom
- Project work dealing with monitoring of Forests pathogens using eDNA

Distance course

collaboration between Depts of Ecology and Wildlife, Fish, and Environmental Studies

Forest Conservation Biology, 15 hp

In depth theoretical knowledge from teachers as well as professionals working with forest conservation

Period 2 = 100%, Period 3 and 4 = 50%

Course leader Erik Öckinger

Thomas Ranius

Therese Löfroth

Anne-Maarit
Hakkala

Jörgen
Sjögren

Joachim
Strengbom

Erik
Öckinger

Conservation biology with a specific focus on forested landscapes

- Online or recorded lectures
 - Literature seminars
 - Projects
 - Exercises
-
- Contact Erik.Ockinger@slu.se for more information

MSc theses

Department of Forest Mycology & Plant Pathology

If you have questions about courses
and thesis work contact:

Malin.Elfstrand@slu.se

Department of Ecology

If you have questions about courses
and thesis work contact:

Joachim.Strengbom@slu.se

Svampkunskap

-två 7.5 hp distanskurser i mykologi
(BI1297 och BI1381)

Lär dig mer om svamparnas

- biologi
- ekologi
- betydelse för natur och människor
- känna igen vanliga arter

Upplägg

- Träffar i Uppsala
- Fältstudier på Billingen
- Däremellan eget arbete

För mer information kontakta:
Anders.Dahlberg@slu.se

Andra kurser av intresse

- **BI0872, Wildlife biology, 15 hp** Inst.
för ekologi kursledare Jens Persson
- **BI1402, Cryptogams and nature
conservation, 15 hp** **distanskurs**, Inst.
för skoglig mykologi och växtpatologi
kursledare Mari Jönsson
