Jägmästar degee is now optional

- New requirements developed together with employers within the forest sector
- Combinations of BSc and MSc programmes – many ways possible
- Base requirement in Forestry science, Biology and Economy
- Student's course choices determines if "only" BSc and MSc degrees are achieved, or if also Jägmästarexamen is achieved.
- *Gives students flexibility to choose and create their own profile – gives diversity*
- *Gives motivation to combine desired competences*

Requirements for jägmästarexamen as of 2022-01-01.

Students admitted to Jägmästarprogrammet can choose the new or old requirements.

Common competenses 195 hp (65%)

Ekonomi 30 hp,
out of which at least
15 hp business
administration

Biology 30 hp, out of
which at least 15 hp
ecology

Forestry science 135 hp, out of which

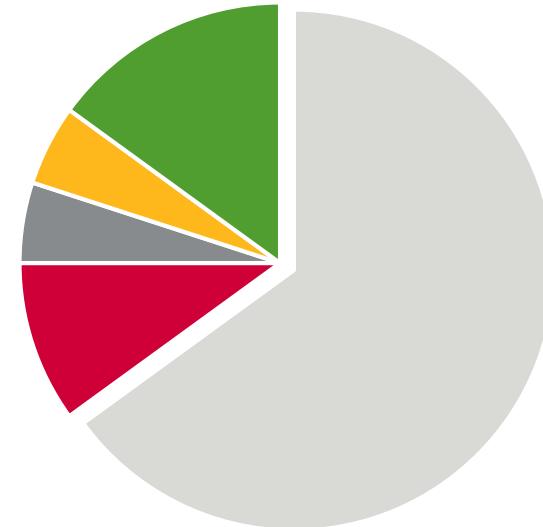

- at least 30 hp on MSc level
- at least 15 hp in each of the three
sub-areas *Mål, planering & policy,*
Naturliga processer och
Arbetsprocesser

Requirements for jägmästarexamen as of 2022-01-01.

Students admitted to Jägmästarprogrammet can choose the new or old requirements.

Flexible additional content 105 hp (35%)

- At BSc or MSc levels
- Free choices within specified subjects

Effect's for students in Jägmästarprogrammet

- Jägmästarprogrammet will be given as usual, until JK 20/24 graduates
- The courses given for JK 20/24 will be the last time those courses are given.
- Take especiall care to inform you about what happens if you paus the studies – contact the Study and career guidance!
 - Approved guidance (e.g. parental leave, illness, military service): SLU arrange finalization of the studies.
 - Voluntary paus (*tex sabbatsår*): SLU assists, but have not the same duties to arrange finalization.

How to choose what to study (to get a job)?!

- What are you interested in?
- What do you want to work with?
- The employers are looking for people within all fields
 - main-streamers as well as unique profiles!
- Open mind regarding (starting point for) work's location helps!

How to choose how long to study?!

- What are you interested in?
- What do you want to work with?
- The employers are looking for people within all fields
 - main-streamers as well as unique profiles!
- Open mind regarding (starting point for) work's location helps!
- MSc gives other competences, and it is more likely to lead to management/specialist jobs.
- Might be good with work experience between BSc and MSc, but the likelihood to "come back" for a MSc is rather small if starting to work.

Tool for study planning

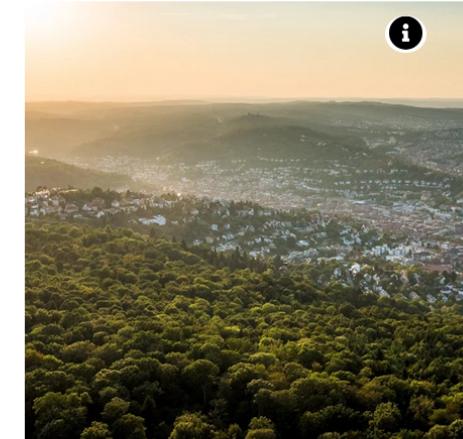

- Simulate degree outcomes with different course choices
- Available on program pages on the Student web
- Note!
 - Download the newest version
 - Do not check for pre-requisites between courses
 - contact Study and career counsellor or Program study director if you suspect overlap (similar content) in courses you have taken and/or plan to take
 - Contacta jennie.ohlsson@slu.se if you find errors in the tool

Forest and Landscape
