BSc, 3 years

- **Skogsekonomi**

MSc, 2 years

- **Forest Bioeconomy (started fall 2024)**
- **Forest and Business Management (started fall 2024)**

Challenges for you as students

Need to consider – and plan for – the following decisions:

- What do I want within the BSc programme?
- Do I want to continue with a MSc?
 - If so, which one? *Interests, entry requirements etc*
- Do I also want a Jägmästar-degree?
 - If so, does the path match with my interest and studies so far?
 - Requirements for MSc programs and Jägmästar-degree ***are different things!***

Tool for study planning

- Simulate degree outcomes with different course choices
- Available on program pages on the Student web
- Note!
 - Download the newest version
 - Does **not** check for pre-requisites between courses
 - contact **Study and career councillor** or **Program study director** if you suspect overlap (similar content) in courses you have taken and/or plan to take
 - Contact jennie.ohlsson@slu.se if you find errors in the tool

Forest and Landscape

PUBLISHED: 09 FEBRUARY 2023

This webpage is for students on the programme Forest and Landscape

Here you will find information about the programme, welcome letter with roll call information, your course schedule, contact information, and the documents that regulate the education. Navigate by clicking on the headings below.

New applicant to the programme in 2023?

There are two admission rounds for this programme. The first admission round is open to all international applicants at www.universityadmissions.se. The last date to apply is 15 January 2023. SLU strongly encourage all international students to apply in this first admission round.

How to choose what to study (to get a job)?!

- What are you interested in?
- What do you want to work with?
- The employers are looking for people within all fields
 - main-streamers as well as unique profiles!

TYPE OF JOB AND EDUCATION

High-school
education

Executor
of practical work

TYPE OF JOB AND EDUCATION

BSc (3 yrs)

Project leader
Customer & executor contacts

High-school
education

Executor
of practical work

TYPE OF JOB AND EDUCATION

MSc, PhD
(2 & 4 yrs,
respectively)

Managers, specialists,
business developer

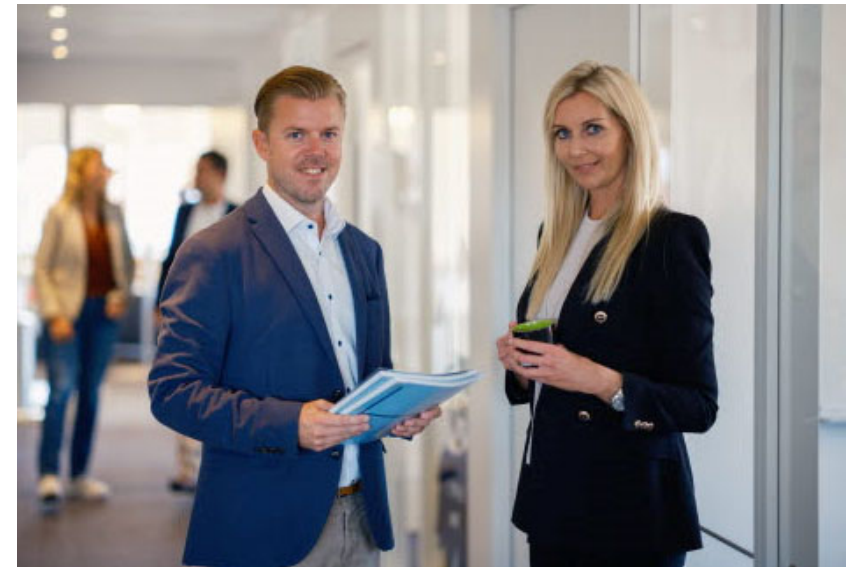

BSc (3 yrs)

Project leader
Customer & executor contacts

High-school
education

Executor
of practical work

With a MSc, the first job is normally as Project leader (same as BSc), but you are more likely to advance to management/specialist jobs.

Some final advise

- Open mind regarding (starting point for) work's location and type of job helps to get started with your professional career!
- Might be good with work experience between BSc, MSc or PhD, but the likelihood of "going back" to study for a MSc or PhD is rather small if starting to work. So if you aim for management/specialist jobs – go for a MSc right away!

Questions?

Contact your programme study director,
or the study and career counsellors.
